

ORATION OF WM. FOREMAN IN
SACRED HEART H.S. CONTEST

Continued From Fourth Page.

that it would be better to have his apostolic see at Marquette, as the present situation was not favorable to communication with the outside world. So with papal permission, Marquette became the see. But the bishop was at Calumet, Hancock, Houghton and Keweenaw as often as he was at Marquette, owing to the steady influx of miners, who demanded his personal attention.

Want and exposure had done their work. The bishop gradually weakened till on the nineteenth of January, 1885, his pure soul left this earth to join his creator. He was buried at the Cathedral in Marquette. Bishop Baraga was a man, whose extraordinary achievements as a pioneer of Christianity will not allow his name to be forgotten as long as there are souls in Upper Michigan who are capable of appreciating true manhood.

To Father Terhorst, a protégé of Bishop Baraga, we owe the founding of the orphanage at Assinibois. The details of the life of this missionary are meager. He was born in Munster, Westphalia, October 3, 1824. After a collegiate course in his own country, he came to America, and was sent by Bishop Baraga to Lower Michigan to complete his course of theology under Father Mark. The unexpected withdrawal of the Jesuits from Sault Ste. Marie in July 1860, left the small parochial school without a teacher, and not being able to find another, Mr. Terhorst was requested to take the place. Although very distasteful to the young man, he fulfilled his duties to the best of his ability until he was relieved by the arrival of a new teacher, Father Terhorst was ordained in December of that year. But the new teacher proved incompetent and he was removed. Father Terhorst, much to his dislike, was again asked to take the place, which he filled for three months.

To compensate him for his services, Bishop Baraga appointed him to the parish of L'Anse. At this point there was a school for Indians, but the teacher was as competent as his colleague at the Sault. Father Terhorst desired the Sisters to come, but that was impossible, owing to the pecuniary circumstances of the mission. In a letter, he was advised by the bishop to give up the idea, but this did not discourage him and on the arrival of the Sisters of St. Joseph in Hancock, he went there and prevailed upon them to come to his place. They went gladly with him, although the bishop had to sell his own watch in order to pay for the transportation of their baggage. Thus came the sisters to the mission. Father Terhorst built a convent for them and erected a church at L'Anse and Keweenaw Bay. His greatest joy was to be with the children of men, living with them, doing their work, never seeking recompense. He died as he had lived, imbued with the love of God. How many orphans he had cared for, how many lives he had brightened, how many homes he had brightened, God only knows. He took his place in the cemetery among them with whom he had lived and labored. A plain wooden cross marks his grave as he desired.

At present, Father Faust occupies the position of the late Father Terhorst. He is a saintly man whose influence upon the lives and destinies of his spiritual children cannot be overestimated. To the children at the orphanage, who are deprived of parents, he is both father and mother, and their own could not love them more.

A priest of special note whose name is indissolubly connected with the building of many churches in Houghton and Keweenaw counties, is Father Edward Jucker. He was born in Germany in 1827. He acquired his early education at the gymnasium, where his father was a professor. At an early age, he conceived the idea of coming to America to join the Benedictine order. He landed in America in 1854. He pursued his studies for the priest-

Try MUSTEROLE for That
Lame Back!

Rub it on briskly—massage it in thoroughly, and note how quickly MUSTEROLE drives out the stiffness and soreness.

It beats a mustard plaster seven ways, and best of all, it doesn't blister or burn.

MUSTEROLE is a clean white ointment made with oil of mustard. It comes in handy white glass jars. Get a jar from your druggist to-day.

MUSTEROLE is recommended by doctors and nurses. Millions of jars are used annually for Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of Chest (it prevents Pneumonia).

At your druggist's in 25c and 50c jars, and a special large hospital size for \$2.50.

Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the MUSTEROLE Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid.

W. H. Thurmond, Rockfish, Va., says: "Musterole is the greatest thing I ever got hold of for muscular rheumatism, affording instant relief to sore and stiff joints and muscles."

COMMERCE CHAIRMAN
NOW IN LIMELIGHT

Edgar E. Clark.

Edgar E. Clark, chairman of the interstate commerce commission, is the man who is now foremost in the minds of the eastern railroad men and financiers. The railroads are seeking permission from the commission of which Mr. Clark is the chief to increase their freight rates. This picture shows Mr. Clark at his desk in Washington.

hood at Philadelphia, but hearing of the Indian mission in Michigan, he deemed his usefulness to be of greater value there. He left the order and applied to Bishop Baraga for permission to come to Michigan; it being granted, he set out at once. He arrived at the Sault and was ordained there on August 5, 1857.

Immediately after his ordination he was sent to Assinibois. Here he felt satisfied. He set to work to learn the Indian language, in which he acquired great fluency. In 1860, in addition to L'Anse, he received charge of the congregation at Houghton. Every alternate Sunday he walked to Houghton from L'Anse to celebrate mass. This he continued for a year, when he was relieved of the duty at L'Anse. But, even now, he had a dual charge. The St. Anne's church at Hancock had just been dedicated and to its pastorate he was appointed. Services were conducted at both churches every Sunday.

During the absence of Bishop Baraga, Father Jucker was assigned to Marquette to take charge of the diocese. The bishop returned, a sick man, and from then till his death, which soon followed, the services of Father Jucker were indispensable. After the death of the bishop, Father Jucker returned to Hancock. From there he went to Calumet and built the Sacred Heart Church. He remained in charge for about five years, when he was sent to St. Ignace. Having been sent to Marquette by the death of Bishop Mark, he was made administrator of the diocese for the third time. His duties being finished he accepted the pastorate of St. Anne's church at Hancock, which he resigned in order to go to Enzie Harbor, but ill health compelled him to go to Detroit. Increasing feebleness caused him to abandon this mission and he returned to Marquette, where he died on September 1st, 1887. His body was taken to Hancock, where, after lying in state over Sunday, it was interred in the Catholic cemetery.

About this time the mines in Keweenaw had been reopened, and the missions in that county demanded a competent man. Father Alban Schneider, O. P. M., was chosen for the place. He is a priest, honored and endowed among all classes and sects for his cordiality and sincerity.

To the School Sisters of Notre Dame we owe a debt that can never be repaid. Through trials and triumphs they have been with us, as silent missionaries, teaching, praying, kind and gentle, patient ever. Their pupils have attained the standard in the world of religion and commerce, but they will never forget to whom their success is due.

With the coming of the railroad and all such factors in civilization, Christianity had become firmly established, but among the Christian population there are many vices, and none so detestable as that of cursing and using the holy name of Jesus in a blasphemous manner. At the advent of Father Bede, O. P. M., and apostle of love and meekness, was heralded the eradication of profanity. Through his individual zeal the Holy Name society was introduced into Calumet. This body in an assured medium of much good and its results are certainly far-reaching.

The ages of infidelity, ignorance and savagery have passed. Michigan, says the entire United States, is Christian. Christianity has flourished, thanks to those servants of God, who, forgetting themselves, forgetting home ties, forgetting everything, have labored unceasingly that the red-man may hear the message of Christ and live true Christian lives and that the white settlers who have come to these shores, might be preserved in their faith. The words of Jesus Christ, "Going therefore, teach ye all nations," have been well preserved and taught by our missionaries of the northern country. From Bishop Baraga to Bishop Els, these words have been a sacrifice of love, and an exchange of celestial greetings from priest to people. Our annals of missionary life would

NOVEL PLAN FOR
SUMMER CAMPCalumet Y. M. C. A. Trying to
Purchase Old Naval Cutter

Application has been made by the Calumet Y. M. C. A. to the department of the navy, to ascertain whether or not it would be possible for the local association to purchase one of the navy cutters, which perhaps has outlived its usefulness for navy purposes but is still suitable for service in inland waters. It is planned if possible to add such a craft to the Y. M. C. A. camp equipment, opening up an opportunity for some very useful and practical nautical experience for the campers.

So as to keep the equipment of the big battleships and cruisers up to the highest point of efficiency, all of the cutters are replaced about every six months, some of them being discarded when in fairly good condition for ordinary purposes. It is such a cutter the local campers desire to purchase.

In each naval cutter, provisions is made for seven or eight men on each side, fourteen in all. With younger boys, there could be two men placed at each oar, providing for a total of twenty-four with room for four or five extras. This would provide for practically all of the boys who ordinarily attend the Y. M. C. A. camp. Physical Director John Johnstone of the Calumet Y. M. C. A. is a practical naval man, capable of teaching the boys the art of seamanship, such as steering a boat with a compass and numerous maneuvers. As such a naval cutter is likewise equipped with a mast, it would be adapted as a sailing craft.

It is planned to devote the proceeds of this year's annual Y. M. C. A. circus to procuring new camp equipment and if it is possible to procure such a naval cutter, the camp program may be made interesting and instructive by including boat trips around the point and to points near the camping grounds.

LIFT BAN ON ADVERTISING.

Physicians May Raise Ethical Barrier
and Revoke Code.

Chicago, March 5.—Steps have been taken here at a meeting of the council on health and public instruction of the American Medical Association which may result in the removal of the ethical ban on newspaper advertising. After a long discussion, in which the drift of argument was practically unanimous in favor of the revision of the ethical code, the council decided to place the question before the national house of delegates of the American Medical Association at its annual convention in Atlantic City, N. J., this summer.

This is the first time the point has ever received official recognition from the organized medical interests of the country, and those who favor it declare that it means the removal of the barrier between recognized medical advertising columns of the secular press. The meeting was held at Congress hotel.

U. S. EXPRESS MAY DISSOLVE

Advance in Stock Believed Forerunner
of Liquidation.

New York, March 5.—The advance in United States Express stock has given rise to several rumors seeking to account for it. In some quarters it was suggested that a well-known tourist agency was endeavoring to secure control of the company to enable it to better handle its Panama expedition traffic.

Another rumor said that a dividend might be declared in the near future, but this seems utterly absurd and may be dismissed.

While it is not known definitely what was the cause of the demand for United States express stock last week, it is not improbable that it was based on the possibility of the company going out of business in the near future and distributing its assets among its stockholders, in which event it is likely that holders of the stock would receive an amount considerably in excess of the present market value per share for their holdings.

400,000 PAY INCOME TAX.

Government To Receive Fifty Million
Through Operation of Law.

Washington, March 5.—This was the last day of filing of income tax returns, but no official count of the number of individuals who are to pay the tax nor estimate of what the nation will collect from them, will be available for at least 48 hours.

At the time the tariff was in debate in congress it was estimated the income tax would bring in about \$50,000,000 and that about 400,000 individuals would pay. Officials tonight were hopeful these figures would be equalled or surpassed.

not be complete if the name of Frederick Els were eliminated. As Father Els, he labored incessantly to preserve the faith among the sturdy miners of the iron and copper countries. In reward for his labor, Pope Leo raised him to the Episcopal See of Sault Ste. Marie and Marquette, in succession to that other noble apostle of the miners, Bishop Vertin.

Bishop Els still administers to the wants of this diocese and is loyally assisted by priests, both secular and religious. The many Catholic institutions in the diocese will stand forever as an enduring monument to his zeal for the promotion of the Faith of our Fathers. Truly, with St. Paul, our noble Bishop, in his declining years, can say, "I have fought the good fight, I have completed my course, I have kept the faith."

BRIDE DROWNS IN SLIMY
WATER OF VENICE CANAL.Few Foreigners Have Met Death in
Falls from Gondolas.

Milan, March 5.—For the first time for many years a visitor to Venice has been drowned from a gondola. The victim was Frau Streter, the daughter of a Viennese banker, who was on her honeymoon.

While returning to her hotel at midnight she stood up to arrange her dress, overbalanced and disappeared in the slimy waters.

Those who fall in very seldom reappear on the surface, being held down by mud and filth. It was as much as the gondoller could do to prevent the distracted young husband jumping in after his wife. Had he done so he, too, would have perished, if not by drowning, by fever, for one mouthful of Venice canal water is liable to be fatal to a foreigner.

LOSES \$70,000 ESTATE
IF HE MARRIES AGAIN.Boston Widow Finds Himself Bound
Against Cupid's Wiles.

Boston, March 5.—On condition that he does not marry again, Mrs. Mary C. W. Speare, of Brooklyn, left her husband a trust fund of about \$70,000. Her will was probated in the Dedham court.

Frank H. Speare, of No. 1638 Beacon street, is the husband. The estate consists of \$125,000 in real estate and \$1,500 in personal property. The estate is left in trust to her husband and her mother. Upon their deaths \$35,000 will go to various institutions. They will also leave \$12,000 to Christian Science churches.

Should Mr. Speare marry again he forfeits the income. Should either of the beneficiaries die, the other will receive the entire revenue.

MOVING TO MICHIGAN.

Reports Show Many Illinois Farmers
Coming to This State.

Lansing, Mich., March 5.—That many farmers are selling out their farms in Illinois and buying or renting farms in Michigan is attested by reports which filter in from day to day in the office of the state have to be inspected and health certificates given and filed with the state veterinarian and the live stock commission.

While no definite number can be ascertained from the reports, there are many who are leaving their old homes and moving into the state. They get big prices for land in Illinois and are enabled to pick good farms here for about half as much.

FARLEY TO VISIT ROME.

Cardinal Will Pay First Visit Since
His Elevation.

New York, March 5.—Cardinal Farley is planning a trip to Rome shortly after Easter, in order to make his annual visit to Pope Pius X. and submit to the Holy See the report of his archdiocese, as prescribed by the canon laws.

This will be his first visit to Rome since his elevation to the cardinalate. In a letter announcing his proposed visit to Rome, which was read yesterday in all the churches of this archdiocese, Cardinal Farley stated that during 1914 the bishops of the entire American continent will visit Rome to give an accounting to the Pope of their stewardship.

1,083 ACCIDENTS IN THE
STATE IN PAST MONTH.

Lansing, Mich., March 5.—The state industrial accident board reports 1,083 accidents during February to employees that are entitled to come under the compensation act. There were also 1,914 temporary disability accidents, 28 persons injured permanently and 31 fatally. Of the 31 fatal accidents, 11 were killed on the railroads, eight in the mines, three in the lumber industry and four in the automobile industry. There were five more fatal accidents during February than in January.

MANY UNEMPLOYED IN BERLIN.

Berlin, March 5.—So acute is the unemployment problem in Berlin that the municipal council has approved of a plan for setting aside a sum of \$75,000 for the purpose of making small loans to citizens who seek means have become temporarily exhausted through no fault of their own, but owing to the present economic conditions.

Herman Ridder, New York newspaper
publisher, 63 years old today.

LESS DYSPEPSIA NOW

--HERE'S THE REASON

The fact that there is less dyspepsia and indigestion in this community than there used to be is largely, we believe, due to the extensive use of Rexall Dyspepsia Tablets, hundreds of packages of which we have sold. No wonder we have faith in them. No wonder we are willing to offer them to you for trial entirely at our risk.

Among other things, they contain Pepsin and Bismuth, two of the greatest digestive aids known to medical science. They soothe the inflamed stomach, allay pain, check heartburn and distress, help to digest the food, and tend to quickly restore the stomach to its natural, comfortable, healthy state.

There is no red tape about our guarantee. It means what it says. We'll ask you no questions. Your word is enough for us. If Rexall Dyspepsia Tablets don't restore your stomach to health and make your digestion easy and comfortable, we want you to come back for your money. They are sold only at the Rexall Stores, and in this town only by us. Three sizes, 25c, 50c and \$1.00. Vast-binder & Read, Calumet, Mich.—Advertisement.

Laurium Department
TO INVESTIGATE
STREET PAVINGLaurium Council Desirous of Getting
Special Material

Before the Laurium village council undertakes the improvement of Lake Linden avenue and the blocks on the south and north ends respectively of Hecla street, a thorough investigation will be conducted to ascertain the best and the cheapest paving material. It is regarded as improbable that macadam will be used because the village has found through experience that the life of a macadam pavement is short when subjected to a heavy traffic as that on the streets mentioned. There is considerable heavy haulage on Lake Linden avenue as well as on Hecla street and as the tracks of the Houghton County Traction company are double practically all of the way, the wearing surface is limited largely to the both sides of these tracks. Neither is it probable an expensive pavement such as brick, granite, asphalt or cedar block will be used, for the cost would be too great to meet from the general funds of the village and their probably would be serious objections to levying a special assessment against the abutting property, especially at the end of a period of business depression and industrial unrest.

What is wanted is a pavement less expensive than granite and more durable than macadam. Fully one-third of the expense of improving these streets must necessarily be borne by the Houghton County Traction company, under the terms of the traction company's franchise, and when this is considered, it seems likely the improvement will not be an expensive one. The streets for the entire distance to be improved have a first class foundation, having been built up with macadam rock for years, and this fact also will contribute towards keeping the cost down.

A suggestion which finds more or less favor with the council, and which, if carried out would probably provide just the kind of pavement desired, is to remove a layer of the street surface perhaps six inches deep and replace it with a wearing surface of concrete. It is claimed this could be easily done by spiking the steam roller and loosening up the top layer of macadam for the required distance, then removing the loose rock, rolling the foundation hard and smooth and then laying the concrete. Estimates on the cost of the paving if this plan is followed indicate it would not exceed the cost of plain macadam, and there is no disputing the fact concrete would prove a more durable pavement. It is claimed by those who have considered the matter that the foundation bed is sufficiently hard to permit of this treatment successfully.

This pavement would then be simi-

THE UNIVERSAL PROGRAM AT THE
PEOPLES'--TODAY--
"THE ELEVENTH HOUR"

A 101 two part Bison with Wm. Clifford and Phyllis Gordon principal characters.

It portrays a daring ride in a water flume and the destruction of an automobile which plunges over a precipice and then rolls a distance down a mountain side.

"HER LADY FRIEND" A story of a friend in need is a friend indeed.

"MIKE AND JAKE JOIN THE ARMY" A roaring comedy.

"THE OPTION" A Western melodrama, with Francis MacDonald taking leading part.

COMING SUNDAY AND MONDAY MAR. 8TH AND 9TH

"ABSINTHE" A four reel subject taken in Paris with King Baggot and Leah Baird the stars. This is one of the most sensational features of the day. Matinee both Sunday and Monday.

For Saturday we will have Florence Lawrence in a Vic for drama entitled "THE ROMANCE OF A PHOTOGRAPH"

lar to that laid in Lake Linden a short time ago, but which was more expensive because of the necessity of building up a good foundation for the roadway before the concrete was applied.

The Houghton County Traction company has already put its lives in shape for the proposed street improvements, having replaced all defective rails last summer, besides laying new cedar ties and made other improvements.

Soon after the election, when it is definitely decided they will be no change in the administration, there will be a meeting of the council to consider this and other improvement projects so that a decision may be reached and work started at the earliest possible moment in the spring.

ELECTION ON MONDAY.

Large Number of New Voters to Be
Registered on Saturday.

Saturday is registration day in the village of Laurium and from present indications, there will be a heavy registration of new voters in the village. The recent industrial troubles, while they resulted in the departure from the village of many old voters, also brought many new residents, many of whom will be able to establish residence qualifications as voters new. In addition voters have moved to Laurium from other parts of the district and are eligible to vote Monday.

Aside from the contest for the office of treasurer, John Gillies, candidate of the Nominating ticket, being opposed by Joseph Chalmers of the Independent ticket, it is unlikely there will be any opposition to the election of the nominating ticket and but little interest is manifested in the outcome.

Jerry Duchene of Ishpeming called on the drug trade in Laurium yesterday.

SODA SWEETENS
ACID STOMACHS,
ENDS DYSPEPSIA

When we eructate our food, acid fluids and we belch gases it doesn't mean the stomach is lacking in digestive juices, says a noted authority who states that nearly all stomach distress and indigestion is a result of acidity; meaning, there is an excess of hydrochloric acid in the digestive organs. This irritating acid retards digestion and promotes food fermentation. Then everything eaten sour in the stomach like garbage mounds in a can, forming gases which inflate the stomach like a toy balloon, producing a heavy, lumpy feeling in the chest or we eructate food constantly belch gas or have heartburn, flatulence, bloating, water-brush and nausea.

He tells us to get a package of 19 grain Sodagen tablets at any pharmacy and take one tablet anytime followed by a tumbler of water. This will instantly neutralize acidity, stop fermentation, absorb the gases and sweeten the entire digestive system.

A well known local druggist says these 19 grain Sodagen tablets are an old favorite Antacid used by thousands of men and women because of their harmless nature, being composed of Soda, Magnesia and Calcium Carbamate U. S. P.—Advertisement.
